ABOUT ME

I am a junior programmer focused on web development, with experience in project development and maintenance. It motivates me to see a finished project built with my knowledge, I enjoy learning technologies and taking on challenges that drive my growth.

WORK EXPERIENCE

Web product development leader

[Digitalhype \(2023 - 2024\)](#)

A page was developed to manage the skills and projects of employees within the organization.

Development of institutional page

CETAC 05 (2023 - 2023)

A page was developed that would present to the public all the information about the institution.

Interface for MetaTrader 4

[MetaTrader 4 \(2024\)](#)

I developed an interface to be able to execute operations more effectively and intuitively.
